Professional Summary

Personable and motivated, equipped with foundational knowledge and technical skills in project management and data analysis. Possesses familiarity with industry-standard software and tools, including proficiency in Microsoft Office and basic coding languages. Aims to leverage these skills to contribute to team success and drive positive outcomes.

Education

Post Graduate Certificate: Computer Engineering (GPA : 3.4 /4), Expected in 08/2025

Humber College - Toronto, ON

Post Graduate Certificate: Computer Engineering (GPA : 3.23 /4), 08/2024

Conestoga College - Kitchener, ON

Skills

- **HTML:** Responsive Web Development
- **JavaScript:** Interactive Web Applications
- **GitHub:** Version Control, Collaborative Development
- **C#:** Object-Oriented Programming
- **Python:** Data Analysis, Scripting, Automation
- **Bootstrap:** Front-End Framework, Responsive Design
- **Time Management:** Efficient Task Prioritization
- **Multitasking and Organization**
- **Problem-Solving:** Troubleshooting Code Issues
- **CSS:** Styling and Layout Design, Animation Effects
- **JQuery:** DOM Manipulation, Event Handling
- **MySQL:** Database Management, Query Optimization
- **Figma:** UI/UX Design, Prototyping, Wireframing
- **Microsoft Office**
- **Tableau:** Data Visualization, Dashboard Creation
- **Teamwork and Collaboration:** Agile Development
- **Quick Learner:** Rapid Adaptor
- **Communication Skills**

Professional Work Experience

Web Developer, 12/2024 to 01/2025

Talon Millwork – Smithville, ON

- Coded websites using HTML, CSS, JavaScript, and jQuery languages.
- Enhanced user experience by implementing responsive web design and optimizing website performance.
- Developed custom web applications, resulting in tailored solutions for client needs.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX, and JSON coding.

Full Stack Web Developer, 12/2022 to 12/2023

Concetto Labs – Gujarat, India

- Used Javascript, SQL and HTML to develop app-solutions.
- Increased website performance by optimizing front-end and back-end code for faster loading times.
- Developed efficient and maintainable software according to business objectives and needs of clients.
- Improved and designed monitoring systems to address issues with system stability and quality of data.

Internship - Python, 06/2022 to 08/2022

Emerging Five – Gujarat, India

- Assist in developing, testing, and debugging Python-based applications
- Research and implement new technologies to enhance existing systems or build new ones
- Collaborate with team members to understand project requirements and contribute to solution design
- Work on assigned tasks in an organized and timely manner, seeking guidance when necessary

Computer Engineering Course Projects

Magical Bookstore Web Application

- Developed a dynamic and interactive web application for a bookstore, enabling users to seamlessly search for books and complete purchases.
- Incorporated **HTML**, **CSS**, and **JavaScript** to create a responsive, visually appealing interface with engaging animations that enhance usability and interactivity.
- Designed and implemented intuitive user flows, ensuring an optimal browsing and purchasing experience.
- Showcased expertise in front-end development, responsive design, and user-centric functionality.

School Management System Using C#

- Built a web application using **ASP.NET Core Web API** and **MVC** to manage Teachers, Students, and Courses in a **MySQL database**.
- Implemented **CRUD operations**, server-side rendering, and database integration with **Entity Framework**.
- Developed intuitive interfaces and robust error handling for a seamless user experience.
- Showcased proficiency in **C#**, **ASP.NET Core**, and database-driven web application development.

Dynamic News Scraping Platform Using React

- Developed a dynamic platform using **React** to deliver real-time news articles tailored to user preferences.
- Integrated the **News API** to fetch and display articles tailored to user preferences, including filtering by country, topic, and language.
- Implemented dynamic rendering and state management for seamless navigation and an intuitive user experience.
- Showcased expertise in **React**, API integration, and responsive web design for seamless user experience.

Certifications

- Python Internship completion certificate.
- Web Development Internship completion certificate from Concetto Labs.

Languages

English(Fluent), Hindi(Fluent), Gujarati(Fluent)
